FOR IMMEDIATE RELEASE

KlutterBox Cleaning Services Announces Strategic Partnership with Nest International to Deliver Commercial Cleaning and Janitorial Solutions

March 20, 2025 – Williamstown, NJ– KlutterBox Cleaning Services, a premier provider of professional cleaning and janitorial solutions, is proud to announce a strategic partnership with Nest International, a globally recognized leader in facilities management and integrated services. This collaboration marks a significant milestone in KlutterBox's commitment to delivering exceptional, standardized, and industry-compliant cleaning services to commercial clients across various sectors.

Under the terms of this partnership, KlutterBox Cleaning Services will support Nest International in executing high-quality cleaning and janitorial operations for their commercial clientele. Through this alliance, KlutterBox will leverage its robust service capabilities, advanced cleaning methodologies, and a trained workforce to meet the highest standards of cleanliness, sanitation, and regulatory compliance required in today's commercial environments.

"We are honored to partner with Nest International in their continued mission to provide world-class facilities solutions," said Tony Lemmo, Managing Director of KlutterBox Cleaning & Janitorial Services. "This collaboration reflects our shared commitment to quality assurance, operational excellence, trust, service guarantee and sustainable service delivery across commercial properties. Together, we are well-positioned to elevate the standard of janitorial and custodial care for clients nationwide."

KlutterBox Cleaning Services brings to this partnership a comprehensive portfolio of services, including routine janitorial maintenance, deep sanitation, floor care, restroom hygiene, and specialized commercial cleaning programs. All services are rendered in alignment with OSHA regulations, CDC recommendations, and EPA-approved disinfection protocols, ensuring a safe and healthy environment for employees, patrons, and visitors.

This partnership also underscores KlutterBox's dedication to workforce training and continuous quality improvement. All KlutterBox Quality Assurance Technicians are trained through a formal, industry-compliant curriculum, ensuring adherence to safety standards, chemical handling protocols, and client-specific requirements.

As Nest International continues to expand its facilities management footprint, KlutterBox is proud to contribute to the delivery of scalable, reliable, and efficient cleaning solutions that support operational continuity, brand reputation, and customer satisfaction for commercial partners across multiple industries.

## **About KlutterBox Cleaning Services**

KlutterBox Cleaning Services is a professional cleaning and janitorial company dedicated to providing comprehensive, high-quality, and regulatory-compliant services to commercial, institutional, and industrial clients. With a focus on innovation, safety, and client satisfaction, KlutterBox is a trusted partner in maintaining clean, healthy, and efficient workspaces.

## **About Nest International**

Nest International is a global leader in integrated facilities management, delivering end-to-end solutions across multiple service verticals including maintenance, cleaning, compliance, and support services. Nest is committed to driving operational excellence and value for its clients through scalable service delivery and industry best practices.
